

Muhammad Awais

Full Stack Developer – Expert in Next.js, Laravel, React (TypeScript), and TailwindCSS

I specialize in building fast, scalable, and SEO-friendly full-stack web applications using **Next.js** and **React with TypeScript and Laravel**. With a strong foundation in modern front-end development and the server-side capabilities of Next.js, I deliver end-to-end solutions that are both technically robust and user-focused. Proficient in leveraging AI tools such as ChatGPT, Claude, Cursor, and GitHub Copilot to enhance productivity, streamline coding workflows, and support content generation.

My expertise lies in developing **dynamic web platforms**, **custom dashboards**, and **responsive UIs** using tools like **TailwindCSS**, **Bootstrap**, and **SCSS**, while leveraging **API integrations** and server-side rendering for performance and scalability.

Tech Stack Highlights:

- **Frontend & Full Stack:** Next.js, Laravel, React (TypeScript), TailwindCSS, Bootstrap, SCSS
- **CMS & Headless Integration:** WordPress as a headless CMS, RESTful APIs
- **Deployment & Optimization:** Vercel, SEO, performance tuning, responsive design

I bring a collaborative mindset to every project, offering clear communication, multiple solution paths, and full project ownership to ensure your goals are met with precision and efficiency.

Personal Information:

Name: Muhammad Awais

Gender: Male

Date of Birth: 26 November 1992

Place of Birth: District Faisalabad, Punjab, Pakistan

Personal Contact Information:

Home City: Faisalabad, Pakistan

Mobile Phone: +92-333-6596941

E-mail: mr.mawais24@gmail.com

Education:

- 2009 - 2014, **Bachelor of Computer Science**, Virtual University of Pakistan, Pakistan
- 2007 - 2009, **Intermediate in Computer Science**, Shiblee College, Faisalabad,

Punjab, Pakistan

- 2005 - 2007, **Matriculation**, Government Technical High School, Faisalabad, Punjab, Pakistan

Skills:

Development Skills:

Next JS, Laravel, TypeScript, ReactJS, JSX, TailwindCSS, SCSS, Bootstrap, Package Managers (Gulp, Yarn etc.), WordPress, PSD/Figma to React/TailwindCSS, PSD/Figma to WordPress, MVC Architecture, Databases (MySQL, MongoDB, Supabase etc.), Version Control Systems (Git), Testing Frameworks (PHPUnit, Postman), Composer (Dependency Management), Security, DevOps Tools (Docker, Kubernetes), ChatGPT, Claude, Cursor, and GitHub Copilot.

Soft skills:

I bring strong **communication, problem-solving, and leadership skills**, enabling me to effectively manage the **entire development lifecycle**. From gathering requirements to delivering seamless deployments using **CI/CD best practices**, I ensure project success through **collaborative teamwork, strategic thinking**, and a proactive approach to overcoming challenges.

Work Experience:

Full Stack Developer

Teamwork Technologies, Faisalabad – Dec 2018 – Present

- Lead full-stack development using **Next.js**, Laravel, **React with TypeScript**, and **TailwindCSS**, delivering scalable and high-performance web applications.
- Utilize AI tools like ChatGPT, Claude, Cursor, and GitHub Copilot to optimize development workflows and automate repetitive coding tasks.
- Collaborate with clients and stakeholders for **requirement gathering, technical estimation**, and translating business goals into effective digital solutions.
- Develop and maintain **WordPress-based websites**, including **custom themes**, plugins, and **headless CMS integration** with frontends built in React/Next.js.
- Convert UI/UX designs from **Figma, XD, Sketch, PSD**, and **Canva** into pixel-perfect, responsive websites using modern frontend technologies.
- Mentor junior developers and oversee team performance by providing **technical guidance**, code reviews, and best practice implementation.
- Manage the complete development lifecycle from **architecture planning** to **CI/CD deployment**, ensuring stability and maintainability in production.

- Collaborated with product teams to integrate user feedback and continuously improve system usability and feature sets.
- Stay updated with evolving **JavaScript frameworks, frontend trends, and web performance standards** to deliver cutting-edge solutions.

Technologies & Tools:

Next.js, React (TypeScript), TailwindCSS, WordPress, Headless CMS, Bootstrap, SCSS, CSS Grid, JavaScript, Git, GitHub, Bitbucket, MySQL, Postman, Docker, CI/CD pipelines

Senior Frontend Developer

Tecdiary, Faisalabad July 2015 – Nov 2018

- Conducted **requirement gathering sessions** through GoToMeeting, Zoom, and in-person meetings to understand project scope and client expectations.
- Collaborated closely with the **design team** to translate UI/UX concepts into responsive and functional web interfaces.
- Provided **technical guidance and mentorship** to junior front-end developers across multiple projects.
- Ensured **pixel-perfect, cross-browser, and multi-device compatibility** in all front-end implementations.
- Participated in **unit and integration testing**, ensuring features met business requirements and quality standards.
- Proactively **identified and resolved technical issues**, ensuring project timelines and performance goals were met.
- Contributed to the creation of **user-friendly, accessible interfaces** that enhanced the overall user experience.
- Worked in collaboration with **cross-functional teams**, including design, QA, and development, to ensure cohesive project delivery.
- Assisted in the **deployment, maintenance, and documentation** of various projects, supporting long-term stability and knowledge sharing.

Tools: HTML5, CSS, JavaScript, JQuery, AlpineJS, SASS, CSSGRID, TailwindCSS, Bootstrap,

WordPress, PSD to WordPress, Package Managers Gulp, Yarn etc, Databases (MySQL), Version Control Systems (Git), Security.

Frontend Developer

One Wood, Lahore June 2014 – June 2015

- Partnered with web designers to **implement responsive websites** using **HTML, CSS, Bootstrap, JavaScript**, and **jQuery**.
- Translated **PSD mockups into clean, standards-compliant HTML and Bootstrap code**, ensuring full responsiveness across all modern devices and browsers.
- Ensured **pixel-perfect design accuracy** by maintaining consistency across various screen sizes and browser environments.
- Participated in **unit and integration testing** to validate alignment with design specifications and improve overall reliability.
- Contributed to the creation of **intuitive and user-friendly interfaces**, enhancing overall user engagement and experience.
- Collaborated with **cross-functional teams**, including UI/UX designers and QA engineers, to support smooth project execution and delivery.

Tools: HTML, CSS, JQuery, JavaScript, Bootstrap, PSD to HTML, Cross Browser Compatibility, Pixel Perfect Pages.

Industry Interests

With a strong focus on **emerging technologies and evolving industry trends**, I continuously expand my technical knowledge to provide **strategic leadership** and contribute meaningfully to **open-source initiatives**. I am deeply committed to **promoting diversity and inclusion**, and thrive in **cross-cultural, collaborative environments**, drawing on a broad spectrum of experiences to drive innovation and team success.
